MEMORANDUM FOR: NSA/TCO 25X1A

ATTENTION :

THROUGH :

SUBJECT : Search for a Doppler Station near
Golenki, USSR

REFERENCE :

(NPIC Project 35040-5)

1. This memorandum is in response to your requirement which requests a search within 35 nm of Golenki, USSR (44-01-15N/131-45-40E) for an indication of a doppler space tracking station.

2. No space tracking station was observed within the 35 nm search radius except the previously identified Near space tracking site located adjacent to the south of Golenki. This site has been reported and described in NPIC/R-69/64, Feb 1964 and MEB/PID 256/64. No interferometer or large array usually associated with doppler tracking was observed. The area was searched on clear photography utilizing the best and most recent coverage. Photography searched is as follows:

25X1D

3. This project is considered to be complete.

25X1A

Colonel, USA
Assistant for Photographic Analysis, NPIC

GROUP 1
Excluded from automatic
downgrading and
declassification

5-17490
